Hello, Ron:

Thank you for all the information that you have sent to us concerning the Aspire property. We appreciate it.

Please bring maps, photos, and other information useful to illustrate and help us better understand the previous PCB characterization and cleanup as well as that which LFR / Arcadis is proposing. Please call me if you have any other questions. Thank you.

We look forward to our meeting with you.

Regards,
Carmen

Subject: 1009 66th Ave. Oakland, CA - soil sample rationale

Carmen - The attached provides the rationale for the proposed soil and concrete sample locations to be collected for polychlorinated biphenyls (PCBs) analysis at the subject Site. I will follow up with you Wednesday October 21, 2009 in the early afternoon to find out what progress the EPA has made regarding the review of the "conceptual" sampling plan for this project. If you have any questions regarding this letter or the project in general, please do not hesitate to contact me at 510-596-9550.
Thanks Ron.
